Service Information

NuSkope Apartment Plans are a stand-alone internet only product which does not form part of a bundle. An email address is not included in this offer.

Minimum Term

1 month, 12 months, or 24 months.

Service Availability & Requirements

NuSkope Apartment Plans are only available in certain NuSkope enabled apartments within South Australia. Initial service qualification checks will need to be performed to determine the availability of the service. If you require WiFi within your apartment, you will need an Ethernet WAN compatible WiFi router.

You can find out more at www.nuskope.com.au/apartments

Fixed Wireless Service Speeds

*Evening Period: 7pm –11pm

NuSkope apartment buildings are connected via Wireless Backhaul to the NuSkope network.

Fixed wireless service speeds are variable based on the time of the day, your location, and the below factors:

Factors that can affect NuSkope Fixed Wireless Link speeds to the Apartment Complex:

- Severe weather conditions such as heavy rain, hail, or snow (Rain Fade).
- Signal Quality, Signal Strength, and/or external sources of radio interference.
- Line of Sight obstructions in between the main apartment antenna and the radio tower (such as trees and buildings).
- Radio tower capacity.

Factors that can affect local (end user) network speeds within the apartment unit:

- Performance of end users' network equipment (such as routers, switches, WiFi extenders, or power-line adapters).
- Connecting to the router via WiFi instead of an Ethernet LAN cable.
- Quality of internal data cabling (if present).
- Amount of people using the internet within the apartment at the same time.

For more information and factors that can affect speeds, you can visit www.nuskope.com.au/speeds-and-performance
